- 12. BOSUN:** Yinkus, na wa o. this Iyabo is really evil o. So she was the one who even advised Tayo to go for an abortion instead of advising her on ways of prevent getting pregnant in the first place.

13. **YINKA:** And to think that Tayo almost died in the process, but at least I hope Tayo has learnt her lesson now.

14. **BOSUN:** (**CHUCKLES**) But you know what amuses me the most?

15. **YINKA:** What?

16. **BOSUN:** Ajani and Wosilat and their ways. They are really funny you know.

17. **YINKA:** Well at least Ajani won't have to sleep in the corridor anymore when Wosilat is not in her safe period. That's the beauty of family planning

18. **BOSUN:** Yes o. I am happy now that they are getting wise

19. **YINKA:** My people thanks for staying tuned to the program. I'm Yinkus and Da Boss is right here with me. We'll take a music break and when we return we'll be speaking with our guest.

20. **BOSUN:** Yeah enjoy the music "Ota mi dehin leyin mi" from the Album Evergreen; a song by Chief Evangelist Ebenezer Obey, a legend of our time, enjoy it.

21. MUSIC BREAK: CUE IN MUSIC – OTA MI DEHIN LEYIN MI BY EBENEZER OBEY

22. **YINKA:** (**LAUGHING**) Welcome back my people, aha Bosun kilo de? I wish you all can see Bosun rocking it out here

23. **BOSUN:** Iyalode you won't understand this music makes me feel intoxicated.

24. **YINKA:** Well that was the music by the true legend himself, whose music has stood the test of time and I believe you've enjoyed it too? Up next is our expert segment and we already have Aunty Adunni with us in the studio.

25. FANFARE: SOUNDS AND CLAPS TO CHEER AUNTY ADUNNI

26. **YINKA:** You are welcome to the program, aunty Adunni.

27. **ADUNNI:** Thank you Yinkus, I am always delighted to be a part of the program.

28. **YINKA:** Aunty Adunni, today I want us to discuss family planning methods. A lot of people have been sending messages asking me to tell them the various family planning methods available

29. **ADUNNI:** (**CHUCKLES**) Ah Yinkus, we cannot exhaust all family planning methods in one program. We will have to take them one by one. In fact, I think we have started already. Remember we discussed the use of condoms sometime ago
30. **BOSUN:** We sure did. I remember very clearly
31. **YINKA:** (**CHUCKLES**) I am sure you did. Aunty Adunni, let's discuss injectables today. A lot of people have heard the word 'injectables' but they don't quite understand what it means
32. **ADUNNI:** Well, it's simple. Injectables are simply injections given to women for the purpose of preventing pregnancy
33. **BOSUN:** I am curious aunty Adunni. How do these injectables work?
34. **ADUNNI:** Well, you know that a woman's body releases egg every month and when this egg meets sperm it becomes pregnancy. What injectables do is that they stop the egg from being released.
35. **BOSUN:** And what about when the woman is now ready to have children?
36. **ADUNNI:** She simply stops taking the injections. It's that simple
37. **YINKA:** Bosun is so curious about this subject. Abi you want to take injectables ni?
38. **BOSUN:** (**CHUCKLES FONDLY**) Ah ah Yinkus! I be woman?
39. **YINKA:** Just kidding. Aunty Adunni, there is a text message here from Fausat. She wrote *I have heard about injectables. In fact I know many people that are using it. I want to ask if there are different types of injectables*
40. **ADUNNI:** Yes, Fausat, there are different types of injectables. There are the types you take monthly, every two months or every three months. Just make sure you discuss with a trained health worker to help you pick a choice.
41. **YINKA:** So can a breastfeeding mother also take injectables?
42. **ADUNNI:** Of course, why not? They are perfectly safe. I think it's the most common FP method and it is not risky at all
43. **YINKA:** Let me read this last message because we are running out of time. this one is from Bolanle. She wrote *Yinkus, well done with the program. I just want to say that I have been using the FP injections for many years now and I*

don't have any problem with it. The only thing is that sometimes, my menses fluctuates but my doctor said that it is normal

44. **ADUNNI:** Your doctor is correct Bolanle. You may experience fluctuations in your menstrual cycle when you are on injectables. But it is nothing to worry about. It is normal

45. **YINKA:** Thank you aunty Adunni. It's always a pleasure to have you with us. My people you're still on to Ireti Eda. Let's enjoy this music we will be right back.

46. MUSIC BREAK: CUE IN MUSIC

47. **BOSUN:** Hope you're having a wonderful time with us; the music you've just listened to is that of Obesere.

48. **YINKA:** And it is time for our quiz. My people this week's question is; how many kinds of injectables are available? You can send in your answer via SMS to this number ...(Ibadan #/ Ilorin #). If you would like to know where you can access FP services, you can call ***** (same number) or go to a PMV with a sign that reads "Get it together" and has a blue, yellow and orange puzzle pieces logo.
