

## **Highlights of presentation by the Former Commissioner of Health, Oyo State Ministry of Health, Dr. Muyiwa Gbadegeshin:**

“The printing and distribution of relevant and appropriate IEC materials cannot be forgotten. Community people were not only adequately carried along, they were meaningfully involved and engaged.”

“I cannot but mention in particular, the magic performed by the 72-hour clinic makeover, by which clinics were totally transformed between Friday and Monday. I must say that this is a feat that no other project or organisation has achieved in the state.”
