

## **Highlights of speech by Mr. Linus Awute, mni, Permanent Secretary, Fed. Ministry of Health represented by Dr. W.I. Balami, mni**

“The coming into being of NURHI project has furthered this process and widened the horizon as it has provided the opportunity for improving acceptable approaches for providing Reproductive Health and family planning information as well as data collection and management from rural perspectives in this country.”

“I do believe that the just ended NURHI project (Phase I) has a lot of positive lessons learned, which individuals and organizations alike would be growing from to improve their chances of becoming a success just like NURHI.”
